ACUTE NERVOUS BREAKDOWN

With Anaemia, Indigestion, and Wasting Disease. Her nerve terrors were indescribable—often wished to die. Owes life itself to Dr. Cassell's Tablets.

A case which must prove of vital interest to every sufferer from nerve trouble, anaemia, or digestive weakness is that of **Mrs. Florence Higgs, of 97, Gordon Road, Peckham, London, S.E.** Seen recently by our special correspondent, Mrs. Higgs said: "I owe my life to Dr. Cassell's Tablets. I had been very delicate for years, suffering badly with constipation and anaemia, and sometimes indigestion so acute that ulcers would form in my stomach. But about four years ago I had an attack of Influenza, which resulted in complete nervous breakdown.

"I was so weak and nervous that I could not bear to be left alone for one minute day or night. The mere thought of going out filled me with terror, and even when my husband took me out to give me the air, this terror would come over me directly I lost sight of my own home, and the awful sensations I endured are indescribable. At such times my heart would start jumping as though it would come out of my body. I could positively feel every beat right to my finger tips. Often I wished I could die and end it all; and yet when death seemed near I was so frightened I would have given all I possessed to live. I had no appetite, could hardly force myself to eat, and naturally I fell away to a white, wasted shadow. I was under treatment at one hospital for 20 months, and at another for a year; but nothing at all they could give me did any good. I thought I was doomed to suffer for life. However, one day I got Dr. Cassell's Tablets, and that was the beginning of new life to me. I began to mend almost with the first few doses, and now—a year later—I am altogether a new woman. I have gained flesh and strength, and a good appetite, thanks to your wonderful tablets."

Mrs. Higgs, Peckham.

Dr. Cassell's Tablets

22501240341

Take Care of Your Nerves

And your Health will take care of itself.

It is a fact well known to medical men that the whole wondrous mechanism of life and health is dependent on nerve action. Your nerves control your body as absolutely as an engineer controls his engine; and without that control, without the mysterious force which the nerves convey, all bodily action would cease.

If, then, your nerves become weakened, your health must inevitably suffer—for every organ and muscle has its nerve or nerves. For example, if the nerves controlling your stomach or liver become weakened, you must suffer from indigestion. If those which actuate your kidneys are affected, you will have kidney trouble. Or, again, if you suffer from general nerve weakness your whole system must become run-down and enfeebled. If any nerve becomes so weakened as to lose power altogether, then the part which that nerve should control is paralysed.

Thus you will see that the state of your nerves is the state of your health. Keep your nerves up to perfect efficiency, as you can do by means of Dr. Cassell's Tablets, and every process of life will—must—proceed naturally and perfectly. If it were possible to keep up this nerve force indefinitely, life itself could be prolonged indefinitely—apart, of course, from accident.

These facts will enable you to understand the seemingly miraculous cures by Dr. Cassell's Tablets which you will read about in the pages following. Dr. Cassell's Tablets nourish and vitalise the entire nervous system, and that is why they compel health when other means fail.

Not every case, perhaps, is cured so speedily as some of those here given. The time required for complete recovery depends on many things—the severity of attack, constitution of the sufferer, whether Dr. Cassell's Tablets are used early or only after every other means has failed—but in all cases where Dr. Cassell's Tablets are persevered with, benefit must follow. Results are certain as anything in medicine can be.

Advice Given Free.

If there is anything you would like to ask about your case, don't hesitate to write to us at once. It will cost you nothing. Mark your letter "Private" and address it to Dr. Cassell's Co., Ltd., 420, Chester Rd., Manchester—all communications are treated as strictly private, and entail no obligation.

Numb to the Waist.

Man who was almost a Cripple, and sinking in decline.—Now back at work, thanks to Dr. Cassell's Tablets.

Never believe that weakness of nerve or body is incurable while you have not tried Dr. Cassell's Tablets. That is the moral of the amazing case here reported from Twickenham, near London. **Mr. F. Roberts**, the subject of the cure, lives at 28, South Western Road, St. Margaret's, E. Twickenham,

Mr. Roberts, Twickenham.

Middlesex, where he was seen lately by a reporter concerning his remarkable cure. "Dr. Cassell's Tablets have simply worked wonders in my case," said Mr. Roberts. "I was almost a cripple, and now I am actually back at work. It was an ulcer under my toe that led to my trouble," he continued. "I did little for this except apply a little ointment, but it got so bad at last that I had to see a doctor. I could work no more; I had gone quite numb in both legs, right up to the waist. I had to go to hospital, where I remained an in-patient for nine weeks. They called my ailment "tabes," and I had to undergo an operation which lasted an hour and a quarter. After that I was discharged, but had to continue attending as an out-patient. When I went out I swayed from side to side. I could not see clearly, and was in constant danger of falling. I had practically no feeling in my legs; I should not have felt a needle pushed into them. My wife used to say I was like a man in drink; indeed, she was almost ashamed to go out with me. Although I always carried two sticks, I could not keep from staggering, and I had wasted from well over 11 stone to 8½ stone in weight. It was while in hospital that I heard of Dr. Cassell's Tablets. I got a sample bottle, and even that did me good. There was no doubt at all about the improvement. From that time I left off the hospital treatment and persevered with the Tablets. It was simply wonderful how I improved, and now after thirteen months of illness I am thankful to say that I am back at work, and able for work. I have pulled up weight wonderfully, and my general health is splendid."

Mr. Roberts is a man of middle age. Formerly a physical instructor in a Yorkshire regiment, he values fitness, and is never weary of praising Dr. Cassell's Tablets. "Tabes," we may explain, simply means wasting or general decline, and this case shows the unequalled power of Dr. Cassell's Tablets to restore the health balance and bring back fitness and bodily vigour.

Saved Baby's Life.

A Mother's awful anxiety relieved.—Her little suffering, wasted infant made bright and well by Dr. Cassell's Tablets.

Almost beyond belief are the cures which have been effected, and are daily being effected, by Dr. Cassell's Tablets—alike in children and in adults.

No case seems too severe for this amazing health-renewer. Wherever there is wasting, wherever there is loss of nerve power, wherever there is feebleness or lowering of the vital force, there Dr. Cassell's Tablets are the surest means of calling back new life and strength and joy and brightness.

Take, for example, this case of the poor little suffering baby boy of **Mrs. Edith H. Fern**, who lives at **82, Desborough Road, Eastleigh, Hants.** Wonderful as it is, it is only one of the thousands which Dr. Cassell's Tablets are constantly curing. Mrs. Fern says:—"When I think of all that Dr. Cassell's Tablets have done for my little baby I bless the day I heard of them. I am convinced they saved my child's life.

"My little Harold was a fine baby when born, but soon he began to ail, and when a few weeks old I had to have medical advice. For four months baby was under treatment, but no good came of it; the child only got worse. It was pitiful to see him, he was so appallingly thin. His little bones stuck out all over his body. We could easily count the joints in his backbone, his shoulders were hollowed in like pits, and even his cheekbones stood up like ridges. It made me shudder to undress him, he was such a frail little skeleton of a baby. He could not keep anything on his stomach, not even the breast—and I'm sure I am healthy enough. We had ever so much doctor's medicine; but poor baby seemed doomed. We expected him to die any moment. He used to go cold all up his legs, and I had to put hot cloths on him, and rub him, to rub life into him. Once I really thought he was gone, he lay so still and his jaw dropped. The anxiety was terrible. Often and often I have sat up with my poor little Harold waiting for the end. But thanks to Dr. Cassell's Tablets it was not to be.

"Harold was 5 months old, and weighed only 7 pounds, when we first got Dr. Cassell's Tablets. Actually in two days there was improvement, and now, two months later, he weighs over 12 pounds, and is ever so bright and well."

Baby Fern, Hants.

Mrs. Fern's story is one which emphasises yet again the almost miraculous power of Dr. Cassell's Tablets to cure wasting and nerve weakness. It shows conclusively that no case should be considered hopeless while Dr. Cassell's Tablets have not been tried.

Eating Meant Torture.

**Nine years' torment from Indigestion. Could retain no food, was Wasted to a shadow—
Yet Dr. Cassell's Tablets cured her.**

A more remarkable story than that here reported has seldom come to light. It is that of **Mrs. Elizabeth Hammond, of Llanhennock, Caerleon, near Newport, Mon.** For no less than nine years this lady endured torments from indigestion and sleeplessness. She was unable to retain any kind of food on her stomach. Digestion seemed almost to have stopped completely. Yet she is in the most perfect health to-day. Surely here is a wonder—or would be did we not know the power of Dr. Cassell's Tablets. But let Mrs. Hammond tell her own story. She says: "I can never express how much I owe to Dr. Cassell's Tablets. I was literally at death's door, wasted to a shadow, and so utterly helpless that I could hardly move at all.

"For nine-years this had gone on, and though I had been to doctors—indeed I had taken endless doctor's medicine, and, further than that, had also attended hospital—I could find no relief. From the first onset I was never free from indigestion, which became so severe that I dreaded food. Every morsel I ate caused me torturing pain in my chest right through to my back. It was as though something were being screwed into my body, and no ease could I get until I had thrown up all I had eaten. Naturally I wasted away till I had no strength at all. I would lie on a couch, even on the hearthrug, for hours, utterly exhausted; yet at night I could not sleep. My head ached frightfully, and things seemed to swim round me. I was badly constipated, too. I became terribly depressed. I used to hold my head with both hands, and just long to scream, I was so utterly miserable. I felt sure my end was near, and I hardly cared.

"But about three months ago a friend got me some Dr. Cassell's Tablets. It seems miraculous, yet it is true, that within an hour of taking the first dose I felt better, and from that time I have steadily progressed. To-day I am as strong and well as ever in my life."

Mrs. Hammond, Caerleon.

How to induce Sleep without Drugs.

Although Dr. Cassell's Tablets contain no narcotic or dangerous drug, they are invaluable in inducing sound, refreshing sleep. They achieve this by so acting on the diseased organ—be it nerve, stomach, kidney, or liver—that almost immediate relief is experienced, pain eliminated, congestion is corrected, and the natural healthy sleep comes of its own accord.

Doctors Said Cancer!

How an operation was avoided by timely use of Dr. Cassell's Tablets. Sickness, wasting, and agonising pains completely banished by these wonderful health-builders.

Again and again we hear of cures effected in seemingly hopeless cases by Dr. Cassell's Tablets, the great medicine for the people, and always it is the same story: "At last I tried Dr. Cassell's Tablets and they cured me." Think of the misery that could have been avoided had Dr. Cassell's

Mrs. Phelps, Treherbert.

Tablets only been tried at first, instead of as a last resort. Take this following case for example, reported by our special representative. It concerns a **Mrs. Louisa Phelps**, who resides at **12, Hopkins Street, Treherbert, South Wales**. "It is now ten years," said Mrs. Phelps, "since I first began to suffer. The trouble came on with pain in my chest after food, and got so severe that my life became a daily misery. Soon I was never free from pain, and try what I would I could get no relief. How I bore it I don't know. I suffered much from headache, too, and wind, and latterly my stomach became so weak that nothing would remain on it. Every morsel came back. Oh, it was awful I wasted to a mere shadow of a woman, with no more strength than a baby. Then a pain started in my left side, which, if possible, was worse than that in my chest. I could not hold myself straight up for this agonising pain. I used to bend nearly double

and press my hands on my body trying to get a little ease.

"A doctor told a friend of mine that I had a cancer, and that I should go to the hospital. Well, I went—for three months as an out-patient,—but I only got worse. I had made up my mind to go in for operation, and had even got a note of admission, when I chanced to read about Dr. Cassell's Tablets, and as a last resort got some. The effect was almost magical. All pain vanished, I could eat and digest my food, and to-day I am as well as a woman could wish to be—though I have never had an operation."

Of course Mrs. Phelps never suffered from cancer at all. Dr. Cassell's Tablets do not cure cancer. But frequently the frightful pains which acute indigestion and stomach troubles can set up, mislead the sufferer into thinking there is cancer when there is none. In all such cases Dr. Cassell's Tablets should be taken at once, that needless operation may be avoided.

Paralysed Child!

Cured seven years ago—still bright and active. Could not even turn in bed, but was entirely cured by Dr. Cassell's Tablets. She now cycles to school.

"I am pleased to tell you that my little girl, Dora, has grown wonderfully since she was cured by Dr. Cassell's Tablets," says **Mrs. Wilkinson, of 11, St. Margaret's Street, Churchgate, Leicester.**

Dora Wilkinson, Leicester.

"As I told you at the time," continues Mrs. Wilkinson, "doctors had said that Dora would never be able even to sit up again; yet she is now in splendid health, and goes every day to school like other children." When Mrs. Wilkinson first got Dr. Cassell's Tablets for little Dora the child was only three years of age, suffered from Infantile Paralysis, and was utterly helpless. "We had her under medical treatment, but she derived no benefit," said her mother. "She was so weak and paralysed that she could not stand alone, nor even turn over in bed. At last I was advised to get Dr. Cassell's Tablets. I got some for Dora, and after taking them for some time she recovered the power to walk. Rapidly she grew stronger, and even gained weight. It was a marvellous cure. We had fully expected that Dora would be a cripple all her life, if she lived at all, and here she is to-day cycling to school

as bright and bonny a little girl as you would see anywhere. Everybody round here knows of the cure, and thinks it little short of a miracle, and people have come long distances to see Dora from having read her case. She is now ten." Every mother whose child is not so active and strong as it should be, or shows symptoms of paralysis, should benefit by Mrs. Wilkinson's experience.

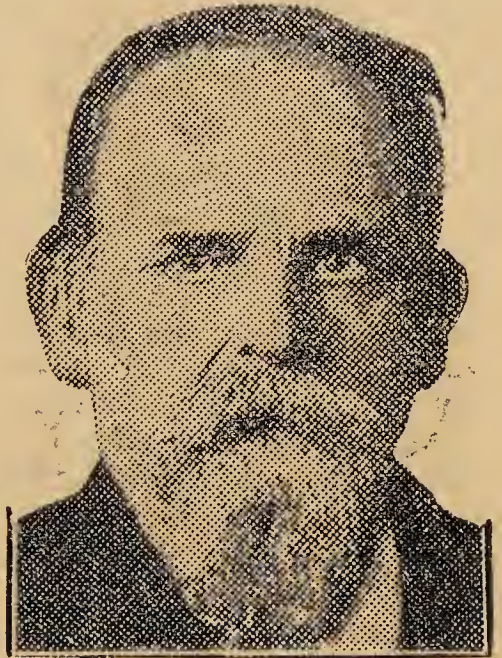

If we were to count only the children's cures which Dr. Cassell's Tablets have effected, the priceless value of this great remedy would be beyond question. But it is not only children's weakness which Dr. Cassell's Tablets overcome, but weakness or wasting at all ages and in both sexes. Dr. Cassell's Tablets strengthen every organ, every nerve, and so ensure health and activity in old or young.

The cures which Dr. Cassell's Tablets effect are real cures, lasting cures. Dr. Cassell's Tablets renew the living energy which maintains every bodily function. That is why they cure to stay cured when other means fail.

3 Years a Cripple.

Man who was pronounced incurably paralysed now walks five miles to work daily.—Made strong, active, fit, and sound by Dr. Cassell's Tablets.

In former days the following cure—and it is only one of the many effected by Dr. Cassell's Tablets—would have been called miraculous; to-day it is explained as the outcome of patient thought and experiment applied to the mystery of nerve failure. Nature-guided science takes the place of nature-defying miracle. The subject of the cure is **Mr. Thomas Hayes, of 11, Church Street, Middlesbrough**, who walks some five miles daily to and from work—though at the time of his attack he was medically informed that he would never walk at all. Here is Mr. Hayes' story. He says: "I was cured of paralysis seven years ago by Dr. Cassell's Tablets, and I have been well ever since. That is the plain fact of my case, and it is a fact that has astonished me and all who know me. I have no idea what caused the paralysis. I was in good health at the time, but it came on quite suddenly, and kept me helpless for three years. I had been reading one night, and got up to go to bed, when all at once my left side gave way—simply collapsed—and I fell on the floor. I had to be carried to bed, and there I lay for weeks quite helpless. The stroke had affected my speech, too, and I could not utter a word. Doctors could do nothing for me, and said I should never have the use of my limbs again—in other words, that I was a cripple for life. After a time I learned to hobble about the room with the help of sticks; but my leg continued absolutely useless. There was pain in it, though, and also in my arm—severe pain that made me wince sometimes. I tried all sorts of things without the slightest benefit, till one day I got a free sample of Dr. Cassell's Tablets. Imagine my amazement to find that even the sample had brought some use into my leg. Of course, I continued with the Tablets, and used to go about with a stick. Soon, however, I went along without the stick, and have been well and active ever since."

Mr. Hayes, Middlesbrough.

This is thoroughly genuine and spontaneous testimony, it is given by Mr. Hayes with the sole thought of benefiting his fellow beings, a most laudable motive, and it is open to investigation. The secret of the cure is that Dr. Cassell's Tablets re-establish healthy nerve action, and when the nerves act the muscles must obey.

Acute Kidney Disorder

Led to Wasting Paralysis.

Nothing gave any relief but Dr. Cassell's Tablets.—They cured. Six years later Mr. Rowen is still well and working.

A case which caused a great sensation at the time, not only in the district where it occurred, but throughout the country, is that of **Mr. Samuel Rowen, of 34, Broom Street, Park Lane, Keighley.** For twelve years Mr. Rowen suffered from Wasting Paralysis, yet Dr. Cassell's Tablets made a well man of him,

Mr. Rowen, Keighley.

and to-day he comes forward again to testify to the permanence of his cure. Seen recently by our representative, he said: "It gives me great pleasure to tell you that I have kept in good health ever since Dr. Cassell's Tablets cured me some six years ago.

"It was a wonderful cure, too. For no less than twelve years I had been so lame from Paralysis that I could not get about at all without the help of a stick. I slept badly, and as for eating I could hardly touch food. Naturally, I wasted away to a mere shadow. The trouble all came on with a severe chill I caught while at work. This led to acute inflammation of the kidneys, and after that came the paralysis; and though I saw doctor after doctor—seven altogether—none of them could do me any good. They all admitted that my case puzzled them. I had been in four hospitals, too, and still I was no better; indeed, I was getting worse all the time. I don't know what I hadn't tried;

but everything proved useless, till in the end I got Dr. Cassell's Tablets.

"I soon knew I had got the right thing at last, for I found myself improving almost from the first. I was stronger and better in every way. Persevering with Dr. Cassell's Tablets I was soon so well that I could walk twenty miles without undue fatigue. That was an important thing to me, for I get my living out of doors. Since then, as I say, I have kept well, taking an occasional dose of Dr. Cassell's Tablets, which I will never cease to praise."

There can be no doubt that Dr. Cassell's Tablets possess an altogether unique power to renew the vital forces of the body alike in old or young. If you suffer from any form of nerve or bodily weakness, from indigestion, anæmia, wasting, overstrain, or other run-down conditions, let Dr. Cassell's Tablets set you up as they did in this case.

Stomach & Kidney Disease.

**A Lancashire Housewife's years of torture.
Hardly ever without pain and headache.
All this suffering turned to health
by Dr. Cassell's Tablets.**

Thousands of weary, strengthless women to whom life is a daily toil will find new hope, new promise of health and fitness, in the following simple story. It comes to us from **Mrs. Mary Ellen Rigby, 123, Davenport Street, Bolton,** and shows the amazing power of Dr. Cassell's Tablets to renew the living forces of the body, even when years of suffering have made health seem impossible.

Mrs. Rigby says: "I should like to tell every sufferer from stomach and kidney trouble what a splendid medicine Dr. Cassell's Tablets are. I had suffered from these complaints for years when I first got Dr. Cassell's Tablets. I used to feel Oh! so done up and helpless. I had no strength, no energy; in fact, I often thought I was done for altogether.

"I was always in pain—pain in my back, in my sides, in my stomach, and I was hardly ever without headache. I suffered from wind to a frightful extent. After meals I used to swell up till I could hardly move. I became afraid to eat at all. I cannot explain my feelings. I had no appetite, and yet I wanted to eat; and then again I was afraid of the awful suffering I knew must follow. Naturally I became as weak and run down as a woman could well be; how I dragged through my day's work I really do not know; and to add to my sufferings I was dreadfully constipated. I tried whatever people told me about. I also had medical advice. But it was only when I got Dr. Cassell's Tablets that I made any improvement. Almost from the first I felt better. All pain left me. I gained strength rapidly, and in two months was really as well as ever in my life. That is about two years ago now, and I am still in the best of health."

Mrs. Rigby, Bolton.

Constipation Troubles.

SPECIAL NOTE.—Whenever constipation, indigestion, wind, or liver trouble is present, Dr. Cassell's Instant Relief should always be used in conjunction with Dr. Cassell's Tablets to relieve the system of impurities. Dr. Cassell's Instant Relief can be obtained for 10^d. and 2/9, of all Chemists.

Snatched from Death.

**Mysterious kidney trouble was draining away her life.—Family waiting for the end.
Sworn testimony to an astounding cure by Dr. Cassell's Tablets.**

Here **is** a case of cure—and cure absolute—which puts to shame all ordinary forms of treatment. Mere drugs could never have effected such an amazing result—it can only be explained on this theory: that Dr. Cassell's Tablets contain a healing force which literally compels the orderly working of the bodily functions and so effects cures which no other means can ever obtain. The story is from a Statutory Declaration of an old lady, positively snatched from Death, and was given before a Commissioner for Oaths. Here it is:—

"I, Mrs. Emma Casey, of 9, Pool Bank Street, Nuneaton, in the County of Warwick, do solemnly and sincerely declare as follows: That Dr. Cassell's Tablets saved my life when four doctors had pronounced my case hopeless and death was thought to be only a question of days. I was voiding blood, and lost no time in seeing a doctor. I was told that I had burst a blood vessel in the bladder. The discharge continued, and I found myself getting terribly weak, so I sent for another doctor, who said I was suffering from stone in the kidneys. I got no better under his treatment, and a third doctor also failed. They advised an operation, but I felt I was too old (66) to risk that, so I tried yet another doctor, but he did me no good.

I was still passing blood, and was little more than skin and bone. I had frightful spasms of wind, knife-like pains in my back, and I was constipated to an excessive degree. I had to live on barley water and infants' food, and the loss of blood was draining the life out of me. My family were simply waiting for my death. I had been in bed three months when my daughter got Dr. Cassell's Tablets. I took them, and though it seems incredible, the next fluid I passed had changed colour. The result was that I improved rapidly, and now I am better than before my illness. It seems more like a miracle than an ordinary cure."

Mrs. Casey, Nuneaton.

GUARANTEE OF MRS. CASEY'S SWORN TESTIMONY.

The above case was sworn at Nuneaton on June 6th, 1912, before Mr. W. W. Whiteman, a Commissioner for Oaths. See Mrs. Casey or write to her and prove its genuineness.

An Irish Miracle.

**Dying lad—too weak to move or to speak—
Restored to health by Dr. Cassell's
Tablets. Mother says never was
such a wonder known in
the district.**

Almost one could believe that Dr. Cassell's Tablets must possess magical, and not merely natural, virtues, so extraordinary is the story which here follows. Nevertheless, Dr. Cassell's Tablets are truly natural, even as the high science which governs their composition is natural and follows natural laws. It is the power of Dr. Cassell's Tablets to renew the underlying life energy which enables them to achieve cures marvellous beyond anything hitherto known in the records of healing. And such a cure is that of Mrs. Morley's 14-year-old son, whom nobody believed could recover.

Mrs. Morley, who lives at Cloonlee, Knock, Ballyhaunis, Co. Mayo, says: "My son's illness came on with aching in the head and in the eyes. After a time he began to get weak on his feet, and this weakness increased so rapidly that soon he was too weak to get out of bed. We had medical advice and treatment, but it did no good. My boy only got weaker all the time. He suffered, too, with pain in his back and his sides. Finally he lost the power of speaking or of taking food. Nobody who saw him believed he could possibly recover. He lay on his back for five whole months, unable to turn over, sometimes cold as death, sometimes again feverishly hot; and all the nourishment he got I had to give him with a spoon. Water ran continuously from his mouth, and when we moved him to shake up the bed his face would swell till the skin seemed on the point of bursting. He had been given up by several doctors, and I had no hope at all of his recovery—indeed, I expected him to die at any moment,—when I chanced to read of Dr. Cassell's Tablets. However, I wanted to do everything I could, so I commenced giving the Tablets. In three days he could use the spoon himself; on the eighth day he got out of bed and dressed himself. How excited I was to watch the miracle! Although so weak, he improved rapidly; and now, seven months from the time he fell ill, he is again in the best of health. Publish my statement. Never was such a wonder known in this district."

A Dublin Lady Cured.

Mrs. Black, 24, Marlbour Street, Dublin, writes:—"I suffered over two years from very severe pains in the stomach; and digestive troubles, and was so bad that I could hardly sleep or eat, and no food would stop on my stomach. I tried many different medicines in vain, and I got very weak and low. Then I tried Dr. Cassell's Tablets, and almost at once my food agreed with me, and now I can eat anything, and am a different woman."

These remarkable stories can easily be verified. But try Dr. Cassell's Tablets, and know at first hand their unexampled power to renew the abounding joy of health and fitness even in seemingly the most hopeless cases.

Wasting Paralysis.

Boy so weak and wasted that parents were afraid to turn him in bed. Kept alive with milk and brandy. Now cured—when thought incurable—by Dr. Cassell's Tablets.

One of the most remarkable recoveries from Spinal Paralysis ever recorded is that of the little 9-year-old son of Mr. and Mrs. McKean, who reside at 13, Greenbank Street, Rutherglen. The case was pronounced utterly hopeless and death said to be inevitable; yet Dr. Cassell's Tablets completely cured.

Master McKean, Rutherglen.

Speaking to an interviewer recently, Mrs. McKean said: "About three years ago I noticed that my little boy—he was then six—was losing the power of his limbs and back. This grew steadily worse till the whole of one side was paralysed. He could not stand—could not move a muscle of the arm and leg affected. Medical opinion was that the trouble must have been brought on by a fall or a terrible fright, and that the case was hopeless. We might make up our minds to lose the child at any time.

"We took him to the Infirmary after that, where he was detained; but came out as bad as ever. We continued to take him there as an out-patient, but no good came of it. He was in great pain at times, and often I have had to get up in the night to attend to him. Indeed, he was a constant anxiety day and night. He got so low and weak that he could take nothing solid, and had to be kept alive on soda and milk, with a few drops of brandy added. Naturally, he wasted to a shadow; we were almost afraid to turn him in bed. His bowels and kidneys were affected, and altogether he was in a pitiable condition. For eight whole months we had to feed him as he lay on his back. We never thought he could possibly recover. But we did our best, nevertheless, trying one thing and another; and in the end we got Dr. Cassell's Tablets. Then the change came. The first thing we noticed was that the child began to have an appetite; then gradually he brightened up and put on flesh. Soon power returned to his arms and legs, and after quite a short course of Dr. Cassell's Tablets he was able to run about again and play. This after more than a year of suffering. He is now bright and well. I am convinced that Dr. Cassell's Tablets saved my child's life."

This is an example of the irresistible healing force latent in Dr. Cassell's Tablets; a healing force which compels health and fitness.

TAKE

DR. CASSELL'S TABLETS

**The Famous Tonic Remedy which is effecting
such miraculous cures all over the Country.**

Dr. Cassell's Tablets act upon every nerve cell and tissue, vitalising and restoring; they strengthen every organ of the body, re-establish the vital forces, give tone to the nerves, and generate new life for the whole system. They act more brilliantly than any other medicine known, in cases of—

**NERVOUS BREAKDOWN,
NERVE PARALYSIS,
SPINAL PARALYSIS,
INFANTILE PARALYSIS,
NEURASTHENIA,
NERVOUS DEBILITY,
SLEEPLESSNESS,
ANÆMIA,
NERVE PAINS,
PALPITATION,**

**KIDNEY DISEASE,
BACK PAINS,
STOMACH DISORDER,
LOSS OF APPETITE,
CHILDREN'S WEAKNESS,
MALNUTRITION,
WASTING DISEASES,
LOSS OF FLESH,
ORGANIC WEAKNESS,
CRITICAL PERIODS,**

and general Bodily Fatigue, Brain Fag, and all run-down conditions.

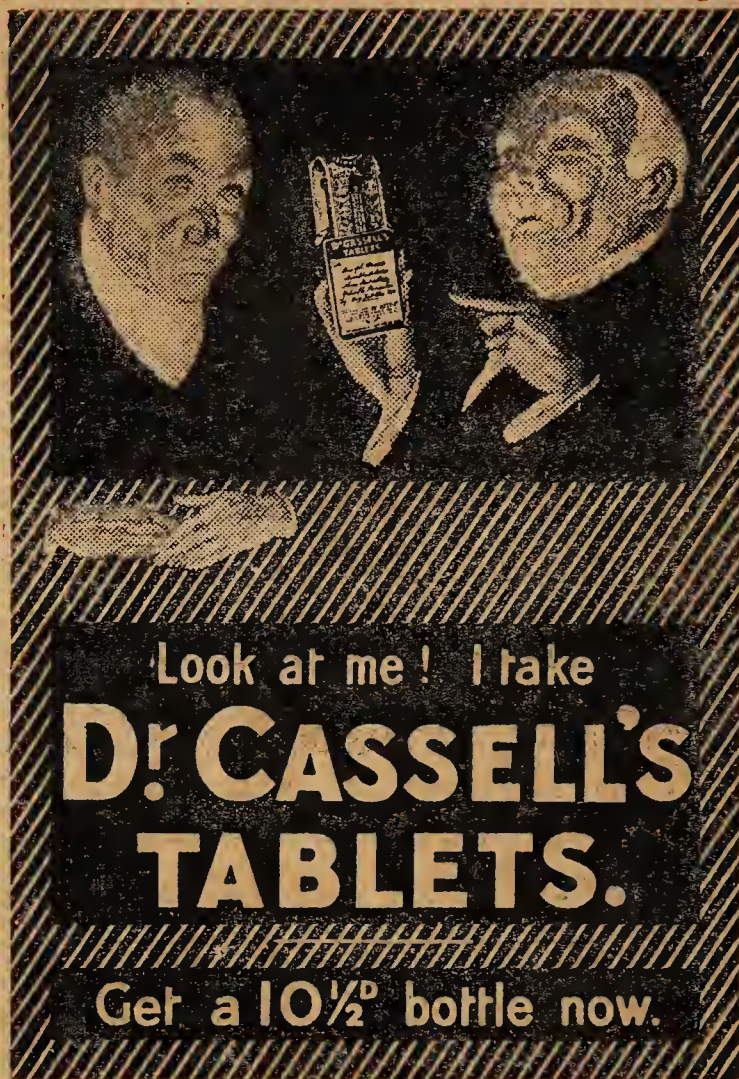

SPECIAL NOTE ! Dr. Cassell's Tablets are guaranteed to contain nothing violent in action or injurious to the most delicate constitution. They are equally suitable for the youngest infant, for grown men and women, and for the aged.

They may be swallowed whole with a little water, or crushed to powder, and given in any food or liquid as desired.

Price 10¹/₂d. a Bottle

*Larger Sizes 1/1½ and 2/9, of all Chemists, Stores, and Medicine
Vendors, or Post Free from Dr. Cassell's Co., Ltd.,
